DETAILED ACTION

Specification

1. The specification has been checked to the extent necessary to determine the presence

of all possible minor errors. However, the applicant cooperation is requested in correcting any

errors of which the applicant may become aware in the specification.

Reason for allowance

2. Claims 29-47 are allowed . The following is an examiner's statement of reason for

allowance:

I/ GROUP I: Claims 29-44:

None of the references of record teaches or suggests the claimed Method for forming

PROTECTIVE COATING FOR ELECTROLYTIC CAPACITORS having the step

limitations:

-- " forming an anode that contains a valve-action metal, "--

-- " forming a protective coating on said dielectric film, said protective coating

containing a relatively insulative, resinous material, and forming a conductive

polymer coating. "--

and all other limitations as recited in claim 1.

Application/Control Number: 10/646,219

Art Unit: 2818

II/ GROUP II: Claim 45:

None of the references of record teaches or suggests the claimed Method for forming

PROTECTIVE COATING FOR ELECTROLYTIC CAPACITORS having the step

limitations:

--" applying a solution to said anodized anode that contains a conductive polymer catalyst and a relatively insulative, resinous material", and thereafter, applying a conductive monomer to said anodized anode, wherein said conductive monomer polymerizes to form a conductive polymer coating. "-- and all other limitations as recited in claim 45.

III/ GROUP III: Claim 46:

None of the references of record teaches or suggests the claimed Method for forming

PROTECTIVE COATING FOR ELECTROLYTIC CAPACITORS having the step

limitations:

--" applying a solution to said anodized anode that contains a conductive monomer and a relatively insulative, resinous material", and thereafter, applying a conductive monomer catalyst to said anodized anode, wherein said conductive monomer polymerizes to form a conductive polymer coating. "--

and all other limitations as recited in claim 46.

Application/Control Number: 10/646,219

Art Unit: 2818

IV/ GROUP IV: Claim 47:

None of the references of record teaches or suggests the claimed Method for forming

Page 4

PROTECTIVE COATING FOR ELECTROLYTIC CAPACITORS having the step

limitations:

-- applying a solution to said anodized anode that contains a conductive

monomer, a catalyst for said conductive monomer, and a relatively insulative,

resinous material, wherein said conductive monomer polymerizes to form a

conductive polymer coating. "--

and all other limitations as recited in claim 47.

Any comments considered necessary by applicant must be submitted no later than the

payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for

Allowance".

3. When responding to the office action, Applicants are advised to provide the examiner

with the line numbers and the page numbers in the application and/or references cited to assist

the examiner to locate the appropriate paragraphs.

Application/Control Number: 10/646,219 Page 5

Art Unit: 2818

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's

disclosure: Fujiwara et al. (US patent 5,938,797) disclose a Low impedance solid electrolytic

capacitor and method for fabricating the same

5. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Thinh T Nguyen whose telephone number is 571-272-1790.

The examiner can normally be reached on Monday-Friday 9:00am-6:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, David Nelms can be reached at 571-272-1787. The fax phone numbers for the

organization where this application or proceeding is assigned are (703) 872-9306 for regular

communications and (703) 872-9319 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding

should be directed to the receptionist whose telephone number is (703) 308-0956.
